

## PROFILE

Hello! I'm Jonathan Audu. Computer Science Graduate. A junior PHP/Laravel developer who is familiar with PHP programming language and Laravel framework. I possess a solid understanding of PHP syntax, object-oriented programming concepts, and relational database management systems, MVC design patterns, and RESTful APIs. With a basic understanding of front-end development technologies like HTML, CSS, and JavaScript. I have good problem-solving skills, attention to detail, and the ability to work collaboratively in a team. Generally, I am a very enthusiastic and motivated developer who is eager to learn and grow in my role. I am open to feedback and
